Address of family physician _____

Suggestions on health related information for camp personnel _____

For Female: Has this person menstruated? _____ If not, has she been told about it? _____

MENINGOCOCCAL MENINGITIS VACCINATION RESPONSE

Meningococcal disease, is a potentially fatal bacterial infection commonly referred to as meningococcal meningitis. New York State Public Health Law requires all parents of children attending overnight camps of 7 or more nights to be informed of this serious bacterial infection. If not treated early, meningitis can lead to swelling of the fluid surrounding the brain and spinal column as well as severe and permanent disabilities, such as hearing loss, brain damage, seizures, strokes, limb amputation, and even death. Meningococcal conjugate vaccine (MCV4) is the preferred vaccine for people 55 years of age and younger. Two MCV4 vaccines are Menactra™ and Menveo™. Information about meningitis, the vaccine, and cost of the vaccine can be obtained from your health care provider or you can visit the following websites: www.meningitisvaccine.com and the website of the Center for Disease Control and Prevention (CDC), www.cdc.gov/vaccines/vpd-vac/mening/default.htm.

Parents, you must CHECK ONE BOX:

- My child has had the meningococcal conjugate vaccine (MCV4), for example Menactra™ or Menveo™.
Date received: _____ Note: The CDC recommend 2 doses of MCV4 for all adolescents 11-18 yrs. of age.
- I have read, or have had explained to me, the information regarding meningococcal meningitis disease. I understand the risks of not receiving the vaccine. I have decided that my child will **not** obtain immunization against meningococcal meningitis disease.

This health history is correct so far as I know, and the person herein described has permission to engage in all camp activities except as noted. Authorization for Treatment: I hereby give permission to the medical personnel selected by the camp director to order X-rays, routine tests, treatment, to release any records necessary for insurance purposes; and to provide or arrange necessary related transportation for me/or my child. In the event I cannot be reached in an emergency, I hereby give permission to the physician selected by the camp director to secure and administer treatment, including hospitalization, for the person named above. This completed form may be photocopied for trips out of camp.

Signature of parent or guardian or adult camper/staffer _____ Date _____

If for any reasons you cannot sign this, please contact camp authorities as soon as possible.

OTK 2016

2016 Health History by Licensed Physician

Date of Examination: _____ Age of Camper _____

Height _____ Weight _____ Blood Pressure _____

Date of last Tetanus immunization: _____

The applicant is under the care, of a physician for the following condition(s): _____

Explanation of any reported loss of consciousness, convulsion, or concussion: _____

Does applicant have epilepsy? Yes No

Does applicant have diabetes? Yes No

Any treatment to be continued at camp? _____

Any medically-prescribed meal plan or dietary restrictions? _____
